Subject: Re: Sandy Nell

I'd like to see something in writing for Dragon, Julie White, and White Mountain. He just needs to tell us he won't be pursuing these projects and wants to close them. We sent letters about White Mountain and Julie White saying we would close the permits if he didn't pay permit fees and asking him to let us know if he wanted them closed. Dragon is complete except for the surety.

Hi Tom,

I received a call from Sandy Nell. He asked for an application for site and or bond release for the Mickey Mine S/001/0062 (the was sent to him via email). He asked about three other sites that are in proposed status. They are Dragon Mine S0230102, White Mountain S0010072 and Julie White Mine S0010071. He stated that nothing was done at these three sites and he wants them closed out. Please review this and see if we can close these sites. Thanks.

Penny
